WORLD OF SEXUAL SUPPORT

*Your invitation
into sensual pleasure*

WOSS

THE VISION

The “World Of Sexual Support” is an online service to help you freely explore and develop your lust, love and sensuality.

For the first time WOSS combines support services from various professional groups – Bodyworkers, Sexworkers and Therapists – that you can get in contact with.

You can also draw on the wealth of experiences on our blog and podcast or browse the latest sexpositive events in your area.

WOSS stands for a new approach to sexuality and love relationships.

We perceive ourselves as part of the LGBTQ+ community and are naturally open for all sexual orientations, identities and forms of relationships.

The background of the entire page is a photograph of a person's legs and feet, heavily covered in various colors of body paint, including red, blue, and white. The lighting is dim, creating a moody atmosphere. The text is overlaid on this image.

SEX IS COMMUNI- CATION

Exploring your sexuality is a way of getting to know yourself and feeling at home in your body and in the world. Sex is communication - emotional, psychological, spiritual and physical.

For creating intimate contact with ourselves and with others we sometimes need help, practice or orientation.

WOSS offers you a way to get in touch with professionals to practice and/or reflect with.

We want to abandon shame, stop the focus on performing and start real sexual communication.

WOSS

THE CONTENT

WOSS is divided into a theoretical section consisting of a lively Blog and a “treasure box” full of individual recommendations, inspiration, interviews, podcasts and advice on everything to do with sexuality – in the broadest meaning of the word. The practical section is a space for experience:

Bodyworkers, Therapists and Sexworkers offer their services for the all-important real practice, maintenance and expansion of sexual skills and the reflection of dynamics within relationships.

On WOSS, Sexworkers can present themselves sexy, classy and effective, in full appreciation of their practice. Bodyworkers with a holistic view of the body, who also integrate the sexual dimension of human beings in their practice, have the opportunity to represent all aspects of their work. Therapists in the field of sexuality and relationships, who look at sexuality beyond a catalog of dysfunctions, complete the range of support.

Providers of seminars, workshops and love art festivals can also use WOSS to introduce their topics in a professional environment. A calendar of events throughout Europe will be made available.

All the sectors represented here use the resulting synergy effects and enhance each other through the joint presentation.

The “World Of Sexual Support” stands for the wonderful diversity of our sensual, erotic and sexual development.

SYNERGY

INSTEAD OF COMPETITION

WOSS wants to grow in collaboration with many other people. We want to actively promote the idea of synergistic effects and use the power and intelligence of many instead of a few.

You want to enrich our website with your own profile? You want to advertise your event? You would like to write something for our blog? You know of books, films or other media on the topic of sexuality and relationships that you would recommend?

We are looking forward to being inspired!

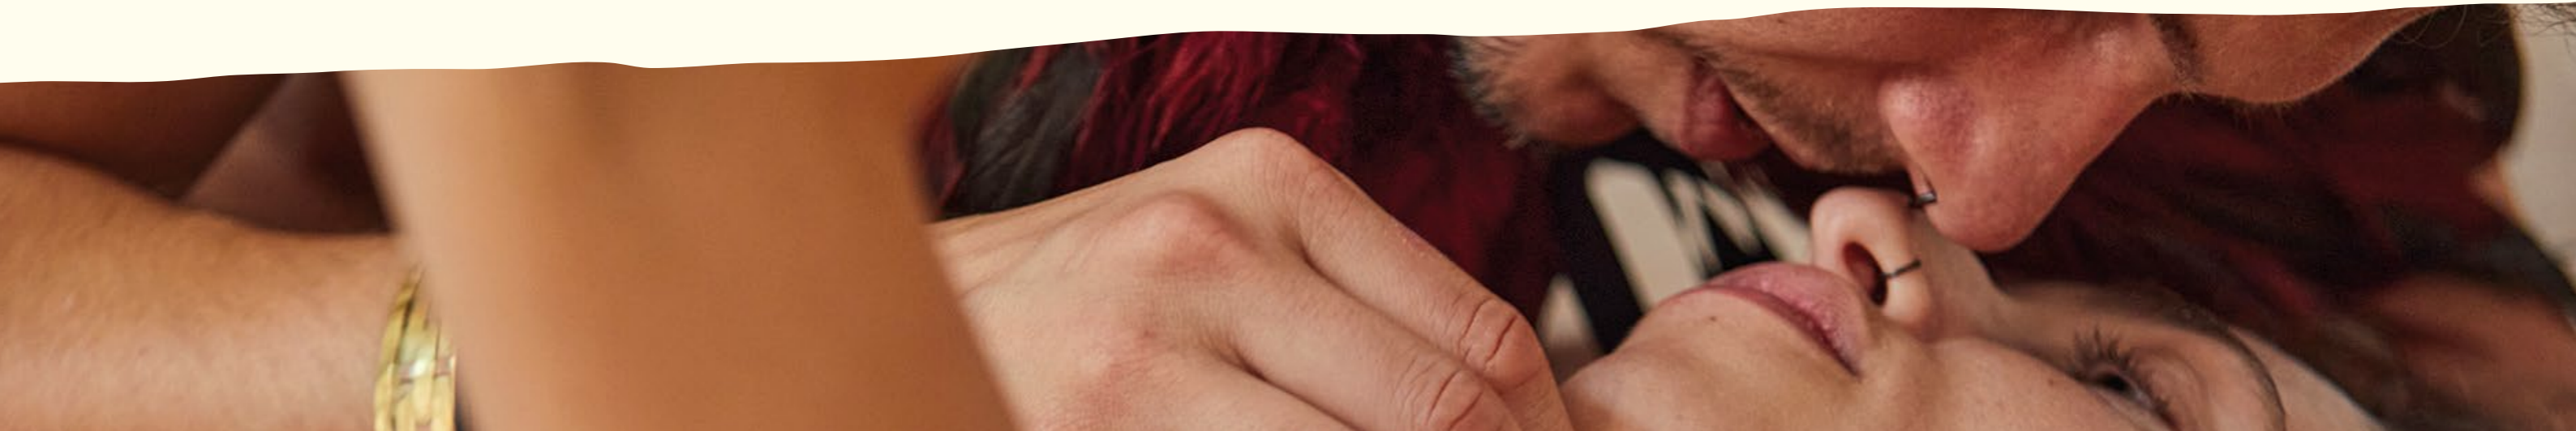

GETTING TO THE HEART OF IT

The existential hunger for loving touch and sexual reassurance continues to be socially degraded and denied. This fact is what WOSS wants to oppose – in a most creative way!

With courage and conviction we are designing a space for people to actively engage and invest in their sexual life and create strong bonds to others.

We would be very happy about donations:
Money, articles, pictures or anything else that
will make WOSS bigger and more beautiful.

WOSS

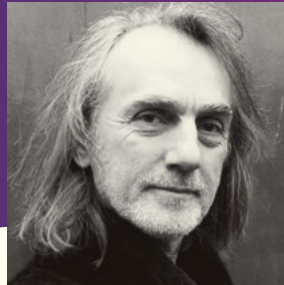

THE TEAM

We at WOSS are Bodyworkers, Therapists, Sexworkers and Clients ourselves which gives us insight into all the areas we are trying to connect with this project.

WOSS is for everybody who wants to explore!
